## Description :

Prsentation de l'diteurThe stunning new novel from the Sunday Times bestselling author.Lydia, Robyn and Dean don't know each other - yet.They live very different lives but each of them, independently, has always felt that something is missing. What they don't know is that a letter is about to arrive that will turn their lives upside down. It is a letter containing a secret - one that will bind them together, and show them what love and familyand friendship really mean...Revue de presse"Lisa Jewell has a unique gift for creating original, complex characters who actually resemble people we might know. When I read her I realise how few authors can actually do this. This book shows her at the top of her game; The Making Of Us is compelling, clever, humane and heartbreaking. It's a cliche to say I couldn't put it down, but I'm afraid it's true.

Wonderful." (Jojo Moyes)"We've been fans of Lisa Jewell for absolutely ages, don'cha know, but we are even more impressed than usual by the latest novel ... Jewell has completely upped her game with this beautifully observed novel." (5 stars, heat)"A spirited novel of identity, love and loss." (Woman Home)"Jewell takes her writing to a new, more sophisticated level." (Glamour)"Her best book yet ... Jewell has moved up a gear into David Nicholls territory."
