## Description :

Prsentation de l'diteurThis advanced study of steel reveals forging secrets that for centuries have been protected by guilds. Never-before-seen instructions, diagrams and photos explain the tricks behind using Japanese mokume gane, differential heat treating, power hammers, and other techniques to make kukris, wavy blades, spears and swords that bear the master's mark.Prsentation de l'diteurThis advanced study of steel reveals forging secrets that for centuries have been protected by guilds. Never-before-seen instructions, diagrams and photos explain the tricks behind using Japanese mokume gane, differential heat treating, power hammers, and other techniques to make kukris, wavy blades, spears and swords that bear the master's mark.Biographie de l'auteurJim Hrisoulas is a master bladesmith specializing in medieval broadswords and daggers and Damascus pattern welding. He has almost 30 years of experience at the forge. Learn more about
